April 25, 2020

Hi everyone, I am an international student. I come from Viet Nam. I am a new student, Spring 2020 is my first semester in DMACC. I was looking forward to join in new education system and enjoy completely different climate here. However, because of COVID-19 after only 2 months joining class at school, I have to study online. I planned to go to Chicago this summer, but plan now canceled due to this scary virus. It does not have many flowers in my country. Besides the purpose of explore new educational system, I also want to come here because of the Spring, the Winter, and the Fall. I love watching snow, when I landed here in Iowa, it was snowing. There are diversity of flowers, they make the landscape look like a picture. In the fall, the color of the leaves is so romantic. All of my professors are trying their best to help students go through this rough time. To me, it is worth living here. I think this virus is really dangerous, everyone should take it serious, stay at home. It is time for your family, enjoy your hobbies, doing exercise, eating healthy. I hope this virus soon end. So that we could be back to our normal life. Stay safe!
